

GRID™ REAR HELMET LIGHT

USB Rechargeable

QUICK START:

1. Push button to power on.
2. Click to cycle modes.
3. Hold 1 second to power off, light powers back on in the last mode used.

FUEL GAUGE:

Color LEDs in the power button help you monitor your light battery power, to tell you when it's time to charge your light once more.

USB CHARGING:

MAKE SURE TO FULLY CHARGE LIGHT BEFORE FIRST USE.

The light indicator will blink when charging.

When charging is complete the light indicator will be a steady green.

MODES	LUMENS	RUNTIME	AUTO-ECO
Solid	30	1.5h	-
Pulse	20	3h	+1h
Strobe	15	6h	+1h
Eco	15	15h	-

COMPATIBILITY:

This light is compatible with the Bell Falcon™ XR and Falcon™ XRV helmets. It is not designed to pair with any other helmet make or model.

TO ATTACH TO HELMET:

Insert bottom bracket of light into slot at the bottom of the rear helmet vent, as shown in Figure A. Push top of light into vent until it clicks into place.

TO REMOVE FROM HELMET:

Inside the helmet, locate the sliding lever on the back of the light, as shown in figure B. Slide the lever down towards the bottom of the helmet and push out until the light pops out of the back vent.

INCLUDED:

- (1) Li Po Battery, (1) USB charging cable

LIMITED LIFETIME WARRANTY

Restrictions and conditions apply

⚠ **WARNING:** Potential choking hazard to children. This light is extremely bright—do not aim directly into eyes. UK ONLY: When used for cycling, this light should be used in conjunction with a British Standard 6102/3 cycle light. ⚠ **WARNING:** This product can expose you to Bisphenol A (BPA), which is known to the State of California to cause reproductive harm. FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help. Shielded interface cable must be used with the equipment in order to comply with the limits for a digital device pursuant to Subpart B of Part 15 of FCC Rules. Specifications and designs are subject to change without any notice or obligation on the part of the manufacturer.
